

Massachusetts Port Authority Invites Applications For Chief Information Officer

Massachusetts Port Authority is seeking a Chief Information Officer to establish Information Technology (IT) strategy, organization and structure throughout the Authority to provide efficient, robust and secure information, telecommunications and security systems for employees and stakeholders, using Massport's facilities and systems.

The Chief Information Officer:

- Creates a clear strategic vision for IT that supports business objectives and can execute on that vision.
- Establishes the mission of the IT organization to foster a business and customer-oriented culture and mindset.
- Demonstrates ability to build trust with others through a commitment to the highest ethical and professional standards.
- Serves as a trusted advisor, building and maintaining relationships with other executives and business unit leaders to develop a clear understanding of business needs.
- Ensures cost-effective and innovative delivery of IT services to meet those needs.
- Collaborates with executive leadership and business partners to define and execute the digital business strategy.

Position Qualifications

Bachelor's Degree in Business Administration or Computer Science or equivalent professional experience and 10-15 years of executive-level technical, management, and supervisory experience is required. An advanced degree in a related field, such as computer science, business (MBA) and/or engineering is preferred.

Salary & Benefits

The salary range for this position is \$200,000 - \$220,000 and includes an attractive benefits package. For instructions on how to apply, please [click here](#) to see the recruitment brochure, or visit the searches tab at www.adkexecutivesearch.com.

Filing Deadline: November 16, 2018
