

The Mojave Air & Space Port Invites Applications For Director of Planning

The Mojave Air & Space Port (MHV) is seeking a Director of Planning to lead the airport's project management, planning, engineering, environmental, design, and construction efforts. This position organizes the execution of the airport capital program, airport master plan, and any architectural or engineering-related initiatives. Mojave Air and Space Port is currently home to more than 60 companies engaged in flight development to light industrial to highly advanced aerospace design, flight test and research and even heavy rail industrial manufacturing.

Position Qualifications

The successful candidate will have a Bachelor's degree in Engineering, five (5) or more years' experience in engineering, and familiarity with relevant FAA requirements. The ideal candidate will have experience in the drafting of lease exhibits for airport stakeholders and tenants and experience in design, construction, engineering and/or planning and a familiarity and comfort with relevant FAA requirements.

Salary & Benefits

The starting salary for the Director of Planning will be commensurate with experience. Mojave Air & Space Port offers a benefit package that includes CalPERS pension retirement, excellent health coverage, dental, vision, life and tuition reimbursement.
